Web + Mobile Development (Next.js 15 & React Native)

I ship production apps with Stripe, Clerk, and your choice of database. Fast, secure, and scalable. Deployed to Vercel (web) and EAS (mobile).
Stack: Next.js • React Native (Expo) • TypeScript • Tailwind
Databases: Appwrite • Postgres • MySQL • MongoDB • Supabase • Firebase
ORM: Prisma/Drizzle • Webhooks • Analytics & error monitoring

Capabilities

- Web: SEO, analytics, error monitoring, responsive UI, Vercel deploy
- Mobile: Push notifications, deep links, EAS builds, store prep
- Backend/DB: Appwrite, Postgres, MySQL, MongoDB, Supabase, Firebase
- Payments/Auth: Stripe (standard & Connect/Tax), Clerk
- Security: env secrets, server-side validation, idempotent webhooks

Packages

Starter

- 1 page/screen
- Responsive UI
- Deploy to Vercel/EAS
- Basic SEO

Standard

- Up to 5 pages/screens
- Clerk auth + DB CRUD
- Stripe (standard checkout)
- Staging + production

Advanced

- Custom API endpoints
- Stripe Connect + webhooks
- Admin dashboard • role-based access (RBAC)
- CI/CD • basic analytics
